Reptiel / Lizard Gecko

Enigmatic, curious, playfull and hilarious

You won't believe your eyes. This reptile looks just like an actual lizard. The realism of his movement will send a shiver down your spine. Lost in the city, Lizard Gecko is constantly seeking attention... But it's all in good fun!

Working with Lothar is working with a friend. Trust, great talent makes him easily for-filling expectations for adults and children as well. A must have artist for every cultural event!

Ea Varna, Walking giant of nature

The sweetest creature of nature curious in human behavior.

Only 3820 young, always in a good mood, Ea Varna is roving the human world to learn from them. Curious as a child he communicates with you and copies your movements. He speaks with a loud and deep voice and uses gestures that also the smallest humans understand.

Come and play, danse and interact with Ea Varna this walking giant of nature

The shopping streets of Halle were impressed when Ea Varna passed by! Everybody wanted to touch him or take a picture of him. Absolute top act!

Opi Bench

Levitation act, optical illusion with a fresh twist.

This friendly grandfather is waiting for his grandchild. As a surprise he bought a couple of balloons. Waiting till his grandchild comes, Opi is resting on the bench. But the balloons are so strong that they lift Opi. Luckily he can grab the bench with his walking stick. ...
A tribute to Opi Ben who lost his battle against cancer. He couldn't grab the bench in time...
Take care of your beloved ones, before you know, they fly away from you...

We love to see Lothar in Dendermonde. We have been working with him for many years. He is not only correct in his appointments, but is also extremely versatile as an artist. He can entertain the public as a living statue, stilt walker or in another form such as with his act "Opi Bench": visually surprising but also an act with a message of caring for each other.
